Foxtrot is a smooth progressive dance characterized by long, continuous flowing movements across the dance floor. The American style version of the Foxtrot takes many forms: The Bronze level Foxtrot, truest to the original Harry Fox version, is a simple combination of walks and chasses ideal for social dancing. Silver American Foxtrot adds continuity, taking on the quality of its International counterpart. And with the possibility of open, apart, and side by side movements, the Gold and Open Gold level Foxtrot resembles the signature styles of Fred Astaire and Gene Kelly.
